

herbst Insight Data importing & exporting

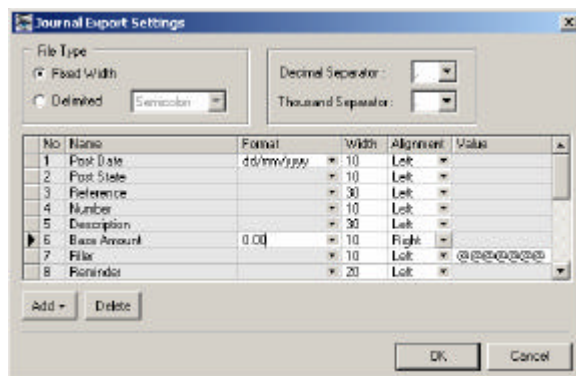

Herbst Insight is designed as an open system with rich & modern facilities for information exchange.

Data Migration Wizard

Converting from existing book-keeping systems is light work with the help of Herbst's Data Migration Wizard. The wizard is also designed to import/export information from and to MS Excel files. You can import & export your customer and supplier details, bank & cash accounts, and nominal ledger accounts and balances.

These powerful migration capabilities make Insight particularly suitable for those wishing to import data from or export data to any other external package.

Text Files

No	Name	Format	Width	Alignment	Value
1	Post Date	dd/mm/yyyy	10	Left	
2	Post State		10	Left	
3	Reference		30	Left	
4	Number		10	Left	
5	Description		30	Left	
6	Basic Amount	0.00	10	Right	
7	Filter		10	Left	
8	Reminds		20	Left	

Nominal ledger journals can be imported/exported to and from a text file to suit outside programs. The import & export format is fully customizable, in that you can change number, order, width & format settings for any column.

Reports Export

Any report or document form can be exported to any industry standard format i.e. txt, bmp, pdf, doc, xls, etc. Reports can also be sent by e-mail or fax directly from Herbst Insight with just one click of the mouse. In addition, information from any screen grid view can be copied to the clipboard or MS Excel, for further analysis with just one click.

Web Connectivity

Herbst Insight is fully integrated with Herbst E-Shop. Directly from Herbst Insight, you can publish stock items and their prices to the web. All orders made through Herbst eShop are sent in eBIZ-XML format to the specified email address, and can be imported into Herbst Insight.

e-BIZ-XML

Invoices and orders can be exported to or imported from the eBIZ-XML format – industry standard for electronic document exchange. Of course, invoices and orders made in other packages or created by Herbst e-Shop can be read.

Fully Integrated Payroll

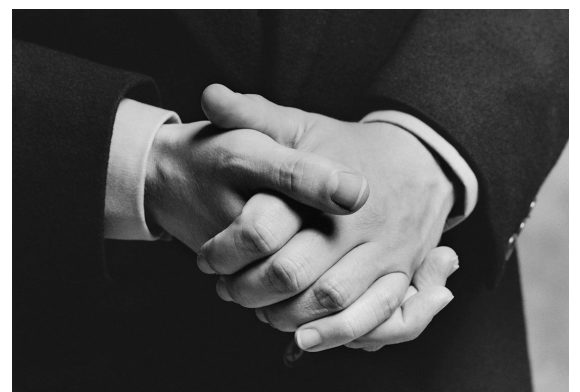

Insight is fully integrated with Herbst HRM 3 Human Resource and Payroll package. Weekly, Fortnightly, Four-weekly and Monthly wages can be imported with one click of a button to the accounts in Insight, thereby automatically updating your nominal ledger, bank accounts and cost centre data.

Weighbridge or other delivery documents

can be imported from other weigh-bridge packages such as Easi-weigh and treated as a standard Insight Weigh-bridge document for sub-sequent processing such as conversion into delivery documents or invoices.

EDI Integration

A new feature of Herbst Insight, is its EDI integration facility which particularly important for a lot of wholesale companies who deal with some of the bigger retail outlets.

In general, the importing and exporting of information to and from Insight and its integration functionality has virtually unlimited possibilities.

Herbst can also create additional modules to suit outside programs if necessary.
